

Grow your business significantly faster and more easily

with Aspirin Business & Peer2Peer Boards

Join a tight-knit group of non-competing business owners who are motivated by growing strong businesses and happy high-performing teams, whilst achieving a great work: life balance for themselves.

With a half-day Board Meeting every month, you'll take time out from the day-to-day details, to focus on your business strategy and find ways to significantly improve your business.

Just a few of the benefits of joining our Peer2Peer Board:

Accountability

Your fellow members will help to hold you to account and ensure that you stay on track. Research shows this gives you up to a **95%** chance of completing your goals.

In-The-Room Problem Solving

Work on your own specific challenges and opportunities, helped by your peers and board chair, with our Members' Challenge & collaborative problem-solving sessions.

Business Improvement Workshops

Learn from your peers, your chair, and over 40 Skill-Up Workshops specifically designed to build your leadership skills, confidence, and capability.

One-to-One Mentoring

Explore your business strategy and team performance, and review your progress in confidential one-to-one mentoring sessions with your qualified Board Chair.

What Makes the Peer2Peer Model Stronger than Other Peer Networks?

Our boards are made up of businesses in similar stages of their growth cycle, meaning your peers will share similar business challenges and opportunities. Only non-competing businesses are allowed to join the same Board, enabling members to be open and honest about their vulnerabilities and great ideas. Members are here to learn and contribute, not to sell. We turn away prospective members who aren't a good fit. With a qualified coach and business advisor as your Board Chair, we create engaging and collaborative learning environments with top tips, activities, and workshops you can take back and use with your own teams.

"I have been part of the Aspirin Business Peer to peer Group for over 18 months now and it has been fantastic..."

Why? Working alongside leaders from non-competing businesses enables everyone to be more open, honest and generous. Because the delegates within it spend time and effort to help each other with ideas and challenges, and inspire confidence to allow people to make a difference in their businesses."
